Section 4: Daily Average Door Count

Revised Instructions for completing Section 4:

Please note - We are asking for a DAILY AVERAGE for June and July and comparing it to the average daily door count for the remaining 10 months. Thanks!

What was your average daily door count for June and July?	
What was your average daily door count for the remaining 10 months?	

If needed you are welcome to use this worksheet:

For example: The Anywhere Library had 540 people enter the library during the 48 days that the library was open during the months of June and July. (24 days in June + 24 days in July) Susan, who is completing the Final ARP Evaluation form calculated the **Daily Average Door Count** for June and July by dividing 540 by 48. She does the same process using the stats for the remaining 10 months of the year.

_____ Total Door Count for June and July
_____ Number of days open during the months of June and July

_____ Divide the total number of people who used the library during June and July by the number of days the library was open in June and July.

_____ Total Door Count for the remaining 10 months
_____ Number of days open during the remaining 10 months

_____ Divide the total number of people who used the library during the remainder of the year by the number of days the library was open the remaining 10 months.

Section 5: Summer Reading Patron Surveys

Instructions for completing Section 5:

Some of the questions on the patron survey are for your library to evaluate your summer reading program. Below are the only stats we need you to collect.

Total number of surveys returned	
----------------------------------	--

Please fill in the total number of survey participants that responded with a 4 and 5 to the following questions:

"Because of Summer Reading"	Number of Surveys with a 4 and 5
I learned something new from participating	
I now enjoy reading more	
I am a more confident reader	
I now read more often	
I read more to my child(ren)	
You or your child/teen want to use the library more often	
"After Summer Reading..."	Number of Surveys that responded:
(You only need to report the After Summer Reading responses)	
I read less than 20 minutes a day	
I read 20 minutes a day	
I read more than 20 minutes a day	

Using the Before the library's summer reading program, I normally read... and comparing it to After the library's summer reading program, I now read from the Patron Survey , what percentage reported an increase in reading minutes?
