

State Grants-in-Aid Construction Awards 2021

Camp Verde Community Library

\$51,000

Door Operators, Stack Lighting and Window Tinting

State Grants-in-Aid Construction funding will be used to install four heavy-duty door operators on the public restrooms; add lighting to the stacks to improve visibility for people with vision impairments; and apply dark tinting on all west-facing doors.

Cottonwood Public Library

\$ 15,462

Improved Accessibility Sidewalk Project

This project will connect two existing sidewalks to safely provide access to the library for everyone, especially youth, seniors, and people with disabilities.

Parker Public Library

\$ 15,938

Annex Building for Improved Library Capacity

The Parker Public Library Annex Building will be used to store program materials, library materials, event materials and more. It will create additional operational capacity in two ways: by clearing out back-room space which is used as make-shift storage, and as a meeting space for library staff.

Snowflake-Taylor Public Library

\$ 39,000

Children's Area and Meeting Room Expansion

This renovation project will expand the existing children's area and create an adjoining, flexible meeting room. The flexible meeting room will be used for library programming, as a makerspace, and for community members. Both the children's area and the meeting room will provide for current and future patron needs by expanding library services.
